

# Machinist Opportunity

**Marchant Schmidt Inc. - VMS Group** specializes in manufacturing, rebuilding and distributing parts and equipment for the food and beverage industry worldwide and has for over 60 years. Our customer base has a consistent demand for our parts and services which provide job security for our employees. MSI is a third-generation family run company at which employees commonly work until retirement.

We have an immediate full-time machinist position open for an individual who enjoys performing a variety of machine shop projects daily. Typical projects range from short run production to manufacturing part's for reconditioning/upgrading food processing equipment. This is a first shift position with controlled overtime.

This individual will be responsible for programming CNC equipment (ProtoTRAK) as well as being proficient with manual machines. You will be responsible for setup, dimensional verification and efficient operation of your machines. With some parts or projects, you may be operating multiple pieces of equipment in a cell-type setup.

An ideal candidate would have technical school training in addition to job experience. You would also need excellent organizational skills and the ability to adapt to a changing workload. Oral and written communication skills are also important.

MSI offers a climate-controlled atmosphere and the latest equipment. In addition to steady employment, we utilize controlled overtime and educational reimbursement. Our outstanding benefits package includes medical, dental and vision insurance along with an optional dependent care reimbursement account. We offer a 401(k) plan, vacation, paid holidays, uniforms, and an employee assistance program in a drug-free work environment.

Qualified individuals can apply by submitting a resume and/or request a job application either in-person, by email at [jobopening@marchantschmidt.com](mailto:jobopening@marchantschmidt.com) or mail to **Job Opening, 24 W. Larsen Drive, Fond du Lac, WI 54937**
